

## CRYOSPRAY SMT CS-1

CS-1 is a **handy device** designed for almost any cryosurgical treatment with liquid nitrogen. Cryospray makes the LN<sub>2</sub> treatment **safe, easy** and **painless**. All the instruments are **reusable**.

There are three models available in different volumes: **0.2 l**, **0.3 l** and **0.5 l**. The **spraying tips** and **practical stand** are included.

## JETS & PROBES

Standard accessories contains stainless jets of different diameters (**0.4 to 1 mm**) and contact probe.

	D (mm)
SJ 4	0.4 mm
SJ 6	0.6 mm
SJ 8	0.8 mm
SJ 10	1.0 mm

	D (mm)
ST 6	6.0 mm

**SMT's cryosurgical set** is a **simple solution for storage, transport and refill of LN<sub>2</sub>**. The user can concentrate just on the treatment.

There are several types of LN<sub>2</sub> containers of **different volumes (6 l to 30 l)**, supplied also with **transport cart** and **universal withdrawal device (UWD)**.

The **UWD** is **safe** and **easy to operate** device that can fill up the cryospray with LN<sub>2</sub> in a few seconds.

All **parts are available separately** or as a **discounted set**.

## GENERAL PARAMETERS

Freezing medium: LN<sub>2</sub> (Liquid Nitrogen)

Working pressure: 90 kPa

Materials: stainless steel body, vacuum insulation, plastic grip

Volume:	<b>0.5 l</b>	<b>0.3 l</b>	<b>0.2 l</b>
Weight (empty):	470 g	420 g	350 g
Dimensions D x H (mm):	70 x 300	70 x 250	60 x 200
Standard accessories:	SJ 4, SJ 6, SJ 8, SJ 10, ST 6	SJ 4, SJ 6, SJ 8	SJ 6
